

## Clark Forklift

Clark Forklift Forklift Training - Presently, there are at least 350,000 Clark forklifts performing globally, and upwards of 250,000 in service in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, covers more than 120,000 specialized parts built for 20 exclusive models of lift trucks and automated equipment. Your local Clark Dealer is your total source for availability of all your parts needs provided by Clark Totalift.

Clark has a extraordinary Parts Distribution team. The components warehouses are conveniently stationed in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their buyers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Motivated to supply the highest level of value and service to our customers, Clark remains on the leading edge when it comes to improving productivity and benefiting performance.

Globally, Clark has one of the most amazing dealer support networks. With over 550 locations globally, seller representation in over 80 nations and 230 locations in North America, their high level of commitment to their consumers predominates the material handling industry.

Clark proudly remains an innovative leader of the material handling industry, pioneering safety features such as the worker restraint system. This exceptional dedication to safety is now a customary feature on every forklift.

Clark's relentless effort to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 — Clark, is the first lift truck manufacturer across the globe to be certified with the globally approved quality standard ISO 9001 for all of their manufacturing plants. Furthermore, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any number of environmental limitations, thus placing them in a prevailing market position.

### Supply Efficient Production

Clark has selected the system of "Lean Production" at all of its assembly plants for the reason that this method is particularly economical and enables minimal use of resources. Developed to guarantee maximum efficiency, this system is intended to discover and acknowledge the most effective ways for manufacturing facility management. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

### Engineering

By working collectively, Clark's product suppliers and engineers communicate towards enhancing product proficiency while minimizing expenses. The contemporary value engineering agenda combines modern product improvement and offers superior client support and service within the industry.
